Skills

- React.js
- Next.js 14+
- Node.js
- Express.js
- MongoDB
- Tailwind CSS
- Redis
- TypeScript
- REST APIs
- PWA

Education

Final-year Software Engineering student, ICP Peshawar
Score: 90%

Note

Profile

I am a full stack developer focused on building fast, accessible web apps. I use React, Next.js and Node to make production-ready projects. I enjoy working on real products that solve user problems.

Experience

Freelance Full Stack Developer

Remote - Various projects

- Built responsive web apps using React, Next.js and Tailwind CSS.
- Created REST APIs with Node.js and Express and used MongoDB for data storage.
- Deployed projects and set up CI/CD for small teams and clients.

Project - TaskTame

Personal project

- Task management app built with Next.js and MongoDB.
- Implemented authentication, real-time updates and PWA features.

Projects

SeatGeek Redesign

Optimized for PC usage, modern UI

Siti Networks Redesign

Improved layout and usability for desktop

I build real-world projects related to the roles I apply for.

Education

Bachelor of Software Engineering

ICP Peshawar - Final year, 90%
